NORWAY AND VICINITY

The Tigers composed of players from Oxford Park and Norway, defeated a team at Mechanic Falls, Thursday afternoon. Game went thirteen innings with a 4 to 1 score.

N. U. Greenlaw moved his electrical equipment from the Beck garage early this week and is located for the present in the rear of L. J. Brooks' store which he recently purchased. A large stock was removed in a short time without interrupting business and everything is booming, although somewhat disorganized until the stock can be arranged. Mr. Greenlaw plans to install the best electrical laboratory for battery service to be found in this part of the State.

The rails over which the Norway and Paris trolleys once bumped are being removed along the highway between the two towns. Probably the overhead system will be the next to be cleared away.

A letter from the Misses S. B. and Z. S. Prince of Redlands, Calif., with a weather report enclosure indicates the month of July was real summer out there. Maximum temperature of 103 was reached July 6, 7, 8, minimum on the same dates 56 to 59 degrees. Lowest temperature for July was 50 degrees on July 5. These figures seem to indicate hot days and cool nights and with a few exceptions much like the condition in Maine during the same month.

Mr. and Mrs. William Boulay of Lewiston are spending a week in town.

Mr. and Mrs. W. E. Sweeney, Mr. and Mrs. Charles C. Monroe, who have been occupying the A. A. French cottage at the lake for the past two weeks, broke camp Friday and returned to their home Saturday morning at Attleboro, Mass.

Elliott was riding his bicycle when he accidentally ran into a man who was in no wise injured, but Elliott got a bad fall. An X-ray was taken of the injured knee, and an operation followed.

The Cummings Plant at Bemis Destroyed

Fire destroyed the C. B. Cummings & Sons Co. spool and dowel mill with a large quantity of manufactured stock and wood at Bemis, Monday afternoon. Fanned by a high wind, the flames leaped from the mill across the yard and enveloped the office building, the boarding house, the storage buildings and other property. Everything was cleaned out but a camp owned by Edwin S. Cummings It is estimated 5,000 cords of wood was burned and much valuable machinery used exclusively by the concern has been destroyed. Some 1,200 feet of railroad siding has been rendered useless. The station was saved with difficulty.

It was feared the flames would spread to the timber lands and help was summoned from Auburn and Rumford. Both departments responded quickly and had streams on the blazing lumber before 6.30 the fight lasting until early Tuesday morning. Guests from Capt. F. C. Barker's camps and Fire Wardens assisted the firemen in their fight to subdue the roaring furnace.

The origin of the fire is not known. It was discovered in the boiler room by workmen after their return from dinner, but spread quickly and was soon beyond control. The mill apparatus was not adequate to cope with the fierce flames which enveloped the large mill. Everything being like tinder, and a gale sweeping across Lake Mooselookmeguntic made conditions favorable for a conflagration to sweep everything before it.

As a safeguard against just this thing occurring is responsible for the isolation of the buildings, and the company believed it would be impossible to suffer a complete loss by any ordinary fire which might occur. A combination of unusual circumstances probably brought about this disaster.

So far as the Norway office knows, the loss will total above $100,000. An insurance of ninety per cent. of the property value was carried in twelve different companies. Edwin S. Cummings, the manager of this plant, has been in Bemis since the fire, and returned Wednesday. It is believed the company may rebuild on a smaller scale and continue in the lumber business there.

Another Land Mark Going

The stately elm in front of E. B. Jackson's store is being converted into stove wood to make way for an addition to the front of that building. Lewis J. Brooks who purchased he property will make extensive repairs after the present occupant vacates. The addition will extend toward the sidewalk in line with the Beck block and the massive elm would interfere with this change. The tree is about 75 feet tall, 14 feet 10 inches in circumference at the butt, and according to Wm. C. Leavitt's estimate, will show 90 rings and more. Local history has it the tree was set out nearly a century ago and has been a prominent landmark sheltering one corner of the Elms Hotel of former years.

Homer Truman is doing the aerial work and a crew with tackle and falls guides the limbs through electric and telephone wires to the road. According to estimates the tree will yield five cords of wood.

Boy Much Wanted Captured Sunday

Morris Bailey's bicycle trip over the State highway toward Gorham, N. H., Sunday cost him his unlimited freedom and a return journey to the Reformatory for Men at South Windham, from which he made a get-away some five weeks ago.

Morris was out of luck when Sheriff Harry D. Cole and Deputy Sheriff Harry O. Stimson motoring along on other business, overtook and recognized the tourist. He offered no resistance at arrest, but was evasive in his replies concerning the practically new bike, and a trim suit of clothes he wore. He claimed to have been working in Poland since escaping from the Reformatory.

Calling up the Lewiston police department, the bicycle was identified as one stolen a few days before. The suit is said to have been purloined from a victim at the Summit Spring House.

Bailey was taken to the county jail for safe keeping and removed to South Windham by an officer from that institution. This ends a long search with the boy on the losing end.

The boy is only eighteen years of age, a native of France, and came to this country with an outfit of American soldiers. He was one of a pair to plan, and nearly execute an escape at the county jail while waiting trial for larceny, and was sentenced to the Reformatory at the February term of the Supreme Judicial Court. He has acquired an excellent use of the English language and is a bright chap, although his ideas of American life appear to be of the lurid type and highly sensational.

Sanford paper says: "Next Saturday the merchants of the town intend to back the Goodall Textile team right. All the stores are to close between the hours of three and five and the storekeepers are to attend the game. The band is to march to the grounds and all in all a big day is planned. In view of the way in which the team is received in Norway on its visits to that town, this demonstration proves itself worthy of the spirit of sportsmanship that should prevail in this community."

Overset Pond A Regular Frog Mine

A fortune awaits the persistent hunter if able to round up a strange variety of amphibians or frogs inhabitating the quiet waters of Overset Pond. These rare specimens have existed theoretically in the minds of prominent local naturalists, but not until a few days since have the material things come into being. So rare is this variety, considerable money might be made gathering a string of handsome creatures for museums, biological laboratories, etc.

A party of Norway fishermen, one of whom is a naturalist, made the discovery last week. A specimen was sighted and frantic efforts made to land the rare find, without success. Some time was spent trying to hook the frog, but the shy recluse would not be coaxed or driven onto the bait. The fishermen have a good description of the markings and general shape which differs in numerous details from the type pictured by the scientific world. Being a link connecting the pickerel and leopard frogs, its anatomy would of necessity prove strange and possibly misconstrue many of Darwin's favorite statements.

If, after diligent search, a frog is found covered with lemon colored stripes along the back; an irridescent head and stubby legs, the valuable creature has been seen. So far as known, Overset Pond is the only location in the United States where the specimen has been found. Scientifically speaking, its name is "Hyler Essemontelemon" and thus far is a priceless product.

A letter from the Misses S. B. and Z. S. Prince of Redlands, Calif., with a weather report enclosure indicates the month of July was real summer out there. Maximum temperature of 103 was reached July 6, 7, 8, minimum on the same dates 56 to 59 degrees. Lowest temperature for July was 50 degrees on July 5. These figures seem to indicate hot days and cool nights and with a few exceptions much like the condition in Maine during the same month.

The Cummings Plant at Bemis Destroyed

Fire destroyed the C. B. Cummings & Sons Co. spool and dowel mill with a large quantity of manufactured stock and wood at Bemis, Monday afternoon. Fanned by a high wind, the flames leaped from the mill across the yard and enveloped the office building, the boarding house, the storage buildings and other property. Everything was cleaned out but a camp owned by Edwin S. Cummings It is estimated 5,000 cords of wood was burned and much valuable machinery used exclusively by the concern has been destroyed. Some 1,200 feet of railroad siding has been rendered useless. The station was saved with difficulty.

It was feared the flames would spread to the timber lands and help was summoned from Auburn and Rumford. Both departments responded quickly and had streams on the blazing lumber before 6.30 the fight lasting until early Tuesday morning. Guests from Capt. F. C. Barker's camps and Fire Wardens assisted the firemen in their fight to subdue the roaring furnace.

The origin of the fire is not known. It was discovered in the boiler room by workmen after their return from dinner, but spread quickly and was soon beyond control. The mill apparatus was not adequate to cope with the fierce flames which enveloped the large mill. Everything being like tinder, and a gale sweeping across Lake Mooselookmeguntic made conditions favorable for a conflagration to sweep everything before it.

As a safeguard against just this thing occurring is responsible for the isolation of the buildings, and the company believed it would be impossible to suffer a complete loss by any ordinary fire which might occur. A combination of unusual circumstances probably brought about this disaster.

So far as the Norway office knows, the loss will total above $100,000. An insurance of ninety per cent. of the property value was carried in twelve different companies. Edwin S. Cummings, the manager of this plant, has been in Bemis since the fire, and returned Wednesday. It is believed the company may rebuild on a smaller scale and continue in the lumber business there.

Another Land Mark Going

The stately elm in front of E. B. Jackson's store is being converted into stove wood to make way for an addition to the front of that building. Lewis J. Brooks who purchased he property will make extensive repairs after the present occupant vacates. The addition will extend toward the sidewalk in line with the Beck block and the massive elm would interfere with this change. The tree is about 75 feet tall, 14 feet 10 inches in circumference at the butt, and according to Wm. C. Leavitt's estimate, will show 90 rings and more. Local history has it the tree was set out nearly a century ago and has been a prominent landmark sheltering one corner of the Elms Hotel of former years.

Homer Truman is doing the aerial work and a crew with tackle and falls guides the limbs through electric and telephone wires to the road. According to estimates the tree will yield five cords of wood.

Boy Much Wanted Captured Sunday

Morris Bailey's bicycle trip over the State highway toward Gorham, N. H., Sunday cost him his unlimited freedom and a return journey to the Reformatory for Men at South Windham, from which he made a get-away some five weeks ago.

Morris was out of luck when Sheriff Harry D. Cole and Deputy Sheriff Harry O. Stimson motoring along on other business, overtook and recognized the tourist. He offered no resistance at arrest, but was evasive in his replies concerning the practically new bike, and a trim suit of clothes he wore. He claimed to have been working in Poland since escaping from the Reformatory.

Calling up the Lewiston police department, the bicycle was identified as one stolen a few days before. The suit is said to have been purloined from a victim at the Summit Spring House.

Bailey was taken to the county jail for safe keeping and removed to South Windham by an officer from that institution. This ends a long search with the boy on the losing end.

The boy is only eighteen years of age, a native of France, and came to this country with an outfit of American soldiers. He was one of a pair to plan, and nearly execute an escape at the county jail while waiting trial for larceny, and was sentenced to the Reformatory at the February term of the Supreme Judicial Court. He has acquired an excellent use of the English language and is a bright chap, although his ideas of American life appear to be of the lurid type and highly sensational.

All the stores are to close between the hours of three and five and the storekeepers are to attend the game. The band is to march to the grounds and all in all a big day is planned. In view of the way in which the team is received in Norway on its visits to that town, this demonstration proves itself worthy of the spirit of sportsmanship that should prevail in this community."

Overset Pond A Regular Frog Mine

A fortune awaits the persistent hunter if able to round up a strange variety of amphibians or frogs inhabitating the quiet waters of Overset Pond. These rare specimens have existed theoretically in the minds of prominent local naturalists, but not until a few days since have the material things come into being. So rare is this variety, considerable money might be made gathering a string of handsome creatures for museums, biological laboratories, etc.

A party of Norway fishermen, one of whom is a naturalist, made the discovery last week. A specimen was sighted and frantic efforts made to land the rare find, without success. Some time was spent trying to hook the frog, but the shy recluse would not be coaxed or driven onto the bait. The fishermen have a good description of the markings and general shape which differs in numerous details from the type pictured by the scientific world. Being a link connecting the pickerel and leopard frogs, its anatomy would of necessity prove strange and possibly misconstrue many of Darwin's favorite statements.

If, after diligent search, a frog is found covered with lemon colored stripes along the back; an irridescent head and stubby legs, the valuable creature has been seen. So far as known, Overset Pond is the only location in the United States where the specimen has been found. Scientifically speaking, its name is "Hyler Essemontelemon" and thus far is a priceless product.

SOUTH PARIS

Davis-Jordan

Walter Davis, son of Mr. and Mrs. A. C. Davis of South Paris, and Eva Jordan of Turner, were married at Turner at 8 o'clock Saturday evening by Rev. Mr. Gould. The bride was gowned in white georgette, with hat to match. The bridal couple are on an automobile tour to Canada, and went through South Paris on Sunday. Mr. Davis has been employed for the past four years by the Texas Company at Bath. The bride was formerly at South Paris for some years, employed in the assembling room of the Mason Manufacturing Co. For the past few years she has been in the employ of the Lunn & Sweet Shoe Co. at Auburn. They will reside in Bath.

Water Supply Low

Owing to a shortage of the water supply to the village, the Company has issued orders that lawn hose must not be used except in case of fire. Not for eight or ten years has the supply been so low. A light snow fall last winter and little rain during the summer has brought on a condition requiring a careful use of water at all times. Heavy showers have passed around us, but little has fallen in the watershed from which the village supply is drawn.

Paris Telephone Co.'s Petition Dismissed

The Public Utilities Commission has dismissed without prejudice the petition of the Curtis Hill & Paris Telephone Co., to define certain of its rights and privileges, including: the limits within which the company may do busines; to lay down rules and regulations as to the service to be given; and such other rules and regulations the good of the company and the rights of the public may require.

The commission says it deems it "the duty of the company itself to establish such rules and regulations as to its service, subject to the approval of this commission, as it may deem necessary and expedient. If found to be unsatisfactory they may be changed by itself or on application to the commission."

DIZZINESS IS ANNOYING

As Many Norway People Know Too Well

When the kidneys are weak or disordering, they fall behind in filtering the blood of poisons. As these poisons attack the nerves, the result is felt in spells of vertigo, just as drunkenness will make a man dizzy from the poisoning of alcohol. Dizziness, headache, backache and irregularity of the kidney secretions are all signs of weak or disordered kidneys and should not be neglected. Use Doan's Kidney Pills, the home-endorsed kidney remedy. Read this Norway resident's statement:

Mrs. Orville Palmer, Lower Main St., says: "Just recently I was suffering from disordered kidneys. My back was very painful and it made me restless at night. I was also dizzy. Everything seemed to turn around in the room. My kidneys didn't act regularly. My mother had used Doan's Kidney Pills with benefit, so I decided to go to Clark's Drug Store and get a supply. After using two boxes I was all right. I gladly recommend Doan's Kidney Pills, knowing them to be a good reliable kidney and backache remedy."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Palmer had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 2-3

HARRISON FOLKS

Far away from the Crowded Wooden Way,
As the crow flies north, five hundred miles they say.
Arab like we've pitched our tent for rest and ease,
Sort o'nature's playground, go as you please.
We cook our own chow and pay as we go,
Altho from Philly, we're not so dead slow.
Queen Bess dips gently in Crystal each day,
When it comes to an argument! she has her own way.
Plays Bridge and Rummy like a pupil of Hoyle,
Congenial natives, who never fume or boil.
Pompey's the banker and jollies the singers,
Some are great artists and some are real wringers.
Tells the story of Portia and her pearls,
Ophelia, her pansies, tresses and curls.
With a dash of Cleopatra by way of spice,
They give ensemble with chorus sung thrice.
You'll find Sopranos, Contraltos galore,
Worshippers of harmony, rythm and score.
Their Trumpet Tongued Leader inspires culture Divine,
Pa Bristol! Crowned Monarch of Music, Perfection, Fine.

A SYLVAN VISIT

To sylvan grove, alone, today,
I made a quiet visit,
Enjoying the refreshing shade,
And balmy breeze exquisite.
I watched the leafy branches stir,
In restless, ceaseless swaying,
And wondered if they danger sensed
And felt the need of praying.
I heard the whir of breeze-kissed leaves,
Their whispering and sighing;
Caressing didn't please them much,
To show which they seemed trying
I then beheld a falling leaf
And felt the breeze increasing,
And very soon a dusky cloud
Bedimmed the sunlight pleasing.
Ah! now indeed, I understood
Why leaf and bough should worry,
An angry storm might sever them
Hence all their fuss and flurry.

FATHER CASSIDY.

NOTED ARTIST

Douglas Volk, the New York artist, whose summer home is at Hewnoaks, Lovell, is busy, this summer, working on his Lincoln portrait. Mr. Volk is painting a large canvas and the photographers already have begun to make reproductions of it. Mr. Volk has exceptional access to Lincoln material, for his father was the artist who made both life and death masks of the great American. This artist, to whom Maine may claim some title through his ownership of a summer home here in Oxford county, has been acquiring fame abroad of late, having painted Foch, Clemenceau and Lloyd George among the great men of Europe. His paintings hang in distinguished galleries in this and other countries. The new Lincoln portrait, it is said by the critics who have seen it, promises to be one of the best of this late president.

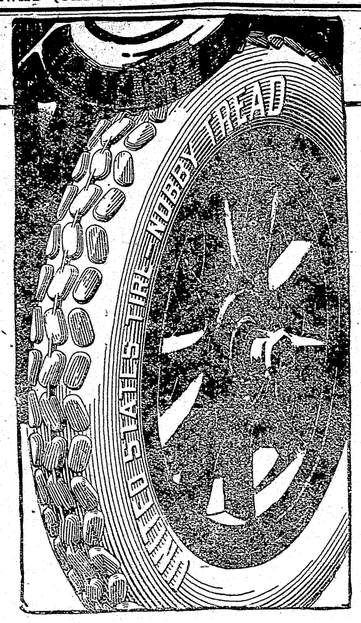
THE
U. S. NOBBY TREAD

Where the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—three rows of diagonal knobs, gripping the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.



If every one listened to experience, how much they'd save

STOP and talk to the next man you see with U. S. Tires on his car. Ask him why.

Most likely you'll hear an interesting story about his tire experiments—before the answer was found. Money wasted. Promises unkept. Trouble on the road—humorous to every one except the man who went through it.

Finally U. S. Tires. And U. S. Tires ever since.

* * *

Perhaps it's the *experience* of U. S. Tire buyers that makes them more emphatic in their preference than ever this year.

When these men have tried most everything by the way of "staggering bargains", "hurrah discounts", "discontinued lines at less" and so forth they know *what not to get.*

They want a *fresh, live tire.* With a good reputation. That's everything it says it is. With the people behind it who back it up.

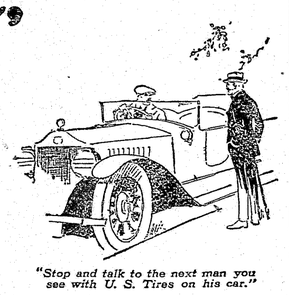
* * *

There are 92 U. S. Factory Branches.

Your local U. S. Dealer is drawing upon them continually to keep his stocks sized up, complete—to give you *service.*

Whenever he gets one or a hundred tires from a U. S. Factory Branch, they are *newly made this season's tires.*

Sold to you at a *net* price. Full values. Square-dealing. A reputable maker. A reputable dealer. The whole transaction as befits the leadership of the oldest and largest rubber organization in the world.



"Stop and talk to the next man you see with U. S. Tires on his car."

FRYEBURG

Fryeburg 4; Conway 3

Fryeburg nosed out the fast Conway all-star team, winning an uphill battle by the score of 4 to 3. Conway scored twice in the first inning on two singles, an error and a passed ball. Fryeburg trailed Conway until the eighth inning, when, with two men out, singles by Abbott, Shaw, and Gray, together with a base on balls and a muffed fly ball, gave them three runs and the game. Fast fielding by both teams and the fine work of the opposing twirlers, kept the crowd on edge and brought forth much applause.

Marked Copies to Show Your Ad

A certain good advertiser follows the custom of sending marked copies of the paper showing his ad to the firm or firms who make the goods mentioned therein.

This is an excellent custom to follow and we are always willing to furnish and mail the paper free of expense, when requested to do so. Our local retail merchant should bear this in mind. Give us the address and we will mark your ad and send a copy any time. It is a good thing to let the manufacturer know that you are featuring his product. Where he finds a progressive merchant willing to co-operate he is often willing to assist in the advertising or in other ways very much and to the advantage of the retailer. Let us help you to tell the maker that you carry his goods and advertise them for sale, by sending a marked copy of the Advertiser.

Electrical Appliance Demonstration

A detailed demonstration of the construction and application of the washing machine, vacuum cleaner, hot water heater and electric range will be given at the Rex Theatre Wednesday afternoon, Aug. 10, at 2:30 by Western Electric Co. representatives who are thoroughly familiar with the handling of each device. An opportunity will be offered anyone who desires to ask questions about the equipment as shown, its rental and operating costs, construction or utility.

A low rate for cooking by electricity has been offered by the Central Maine Power Co., and therefore the electric range to be shown will no doubt create considerable interest. The range will be handled by a representative who has had experience in cooking and who can answer all questions with regard to its use in the home.

This demonstration is being given entirely free to the people of this territory, and all should avail themselves of the opportunity to be present. Program follows:

1. News of the day in motion pictures.
2. Introductory address, Mr. A. C. Barker, Supt., Oxford Electric Co.
3. Central Maine Power Co., policy, Mr. O. D. Mudgett, Supt., Androscoggin Electric Co., Lewiston.
4. Motion Picture, "A Square Deal for His Wife."
5. The Western Electric Range Mr. C. A. Flint, National Range Specialist, Western Electric Co., New York.
6. The Electric Hot Water Heater Mr. A. L. Smith, Gen'l. Mgr., Aetna Elec. App. Co., Boston, Mass.
7. Solving the Washday Problem by Electricity. Mr. H. B. Crawford, Western Electric Co., Boston, Mass.
8. The necessity of a vacuum cleaner in the home.
9. Facts and Figures on Electrical Housekeeping. Mr. R. Rannacher, Sales Mgr., Androscoggin Elec. Co., Lewiston
10. Motion Picture. (This will be a real thriller, and is worth staying for.) adv.

Mrs. Evelyn Chandler Briggs of Bethel was in town, Thursday, to witness the Twin Towns-Oxford ball game.

Company C was given practical field work, Saturday night and Sunday at the fair grounds. The company marched to the grounds, Saturday, after supper and were drilled in pitching tents. Guards were posted and the outfit camped during the night. Chow was served Sunday morning and noon at the mess room located in Twitchell's booth. A large part of Sunday was spent on the range. This is in preparation for training at Camp Devens from Aug. 13 until Aug. 27.

Four Browning automatic rifles used on the range by members of Co. C have kept people guessing because of the rapidity of the shots. Many still believe the rumpus is caused by a trip hammer used by construction crew on the Grand Trunk, although the crew have nothing of the sort.

Mrs. Mary Mealand Stone has resigned as teacher of music and drawing in the Norway schools and will locate elsewhere, probably in the west. Mr. and Mrs. Stone will remain in town until the first of September.

Brooks-Wight

A very pretty home wedding took place at South Paris, at the home of Mr. and Mrs. Leon A. Brooks, Monday afternoon, Aug. 1, when their son, Lieut. Winfield Brooks, was united in marriage with Dorothy Wight of South Paris, by Rev. C. G. Miller. Before the ceremony a solo, "Oh, Promise Me," was rendered by Evelyn Wight, after which the wedding march, "Rubinstein's Melody in F," was played by Laura Brooks. The maid of honor was Evelyn Wight, sister of the bride, and the best man was Richard Millett, classmate of the groom.

Firestone

30x3½ STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3½ inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to $13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years---four plies long staple fabric---extra gum between plies---heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3½, $24.50; 32x4, $46.30; 34x4½, $54.90.

MRS. NANCY J. COLBY

In the passing of Mrs. Nancy J. Colby on July 19, it is well to give some thought, as she was a woman of many merits. Born 1846, Feb. 3, the daughter of Geo. Other than a few years in Massachusetts, their home was in Rumford, their native town.

A woman long loyal in the work of the Woman's National Relief Corps, she was elected president of the Department of Maine in 1897, and served wisely and well. NORWAY AND VICINITY

Greeted by Norway Friends

Saturday, July 30th, at 2:30 in the morning, two autos left Milton, N. H., for Norway. Mr. and Mrs. Harry L. Avery with their son Theron and daughter Louise and sister, Sallie Avery, were the occupants of one car. Those in the other car were Mr. and Mrs. John Avery with their niece, Mrs. Walter Hayes of Somerville, Mass., and a lady friend from the same city, also Dixie, the petted cocker spaniel.

They went up through the mountains by way of Pinkham Notch, down through Bethel and Locke's Mills to South Paris and Norway. Their objective point was the O. P. Brooks house on Pleasant St., which they reached at 5:30 p. m., having driven 170 miles. They were decidedly damp as they had many showers on the way. They received a warm welcome from "Aunt Julia" and her daughter, who reside there.

Mrs. Julia Corliss Dorr, formerly of Milton, N. H., is now in her eighty-third year. She is an aunt to Mrs. Harry Avery, whose mother, the late Mrs. Emily Pinkham, was her twin sister. Mrs. Avery had recently made her annual two weeks' visit to her, but she is "Aunt Julia" to all of them and her pleasure was touching to behold as she welcomed dear Milton friends with tears in her eyes. They all told her she had not changed a bit since they saw her nine years ago. They had a jolly time as they prepared supper, like a party of gypsies, on the front lawn.

After listening to some victrola music they were tired enough to rest. Some of the party occupied the upper screened piazza, while the others, scorning screens, camped on the lower one.

At five next morning they were up preparing their camp breakfast. At 7:30 they had washed and packed all their utensils, said good-byes with promises to come again and see more of "lovely Norway" and started for home by the way of Poland Springs, Portland, and Rochester, N. H.

Roland L. McCormack has registered for courses at the summer session of Boston University. Mr. McCormack is specializing in Biology and Psychology.

BASEBALL

Twin Towns 2; Sanford 2

Twelve innings with no decision was the result of an exciting battle at the fair grounds Thursday afternoon. A shower stopped the game, leaving disappointment in its wake. The Twins had little the best of the argument, and should have settled the contest in their twelfth inning, but a bad break with two on and one out, tossed the golden opportunity into the air. Both outfits played fast and gave a good exhibition of baseball in its various phases.

The Twins were the first to tally. In their fifth session, Purington slammed into deep center, Del Bissonette, late of the "Yanks," basted a three sacker into center, scoring Purington. Bissonette crossed the plate when Trafton went out on a sacrifice fly. Another rally in the eighth opening with Fuller's triple looked good, but this splendid opening was nipped in the bud by Freddie Parent's foxy followers.

Houghton's passes issued Rowe and Parent in the eighth, produced the pair of runs secured by Sanford. Eight visitors walked, but Houghton's knack of fanning the Sanford sluggers in critical stages more than once saved the game from falling into the hands of the visitors.

Canavan, the ex-Brave twirler, was touched freely, and the Twins found him for seven safeties including two triples and a double. He succeeded in striking out only five and issued but two passes.

Twin Town 7; Biddeford 2

The Twins walked away with the game at the fair grounds, Saturday, with little resistance except from Ham, who twirled a clean cut article for Biddeford. He also did a good share of the fielding especially during the fourth inning when his team was flivvering over rough roads. The visitors were outclassed, and unable to make their hits into runs excepting in the last two sessions. Hunt eased off after the landslide in the fourth, allowing the visitors an opportunity to knock the ball over the field.

Good baseball was shown during the first few innings. Biddeford exploded in the fourth, allowing ten men to face the pitcher and five runs to cross the rubber. This was accomplished with slashing drives by Keville, Masterman and Bissonette, aided by three costly errors. This was the inning Ham made the running put-outs rather than chance a throw to his basemen.

Two more runs were copped by the Twins in the eighth. White landed at first on Kelley's poor throw to that base, Bissonette singled, Trafton landed safely with two runs netted, when Lester and Libby collided while endeavoring to capture a long fly between center and left field.

Not until the eighth inning could Biddeford work up anything more lively than the one-two-three program. Scattered hits were sandwiched along, only to have the runners smothered while attempting a steal. Good fortune smiled in the eighth and they jumped on Hunt's straight balls like mad. Two singles netted one lone tally and again in the ninth a single, a fumble by Fuller, and a pass permitted another score. This solitary run was practically a gift on Masterman's throw to first, while toying with Tierney at that location.

Moundsville, W. Va.—"I had taken doctor's medicine for nearly two years because my periods were irregular, came every two weeks, and I would suffer with bearing-down pains. A lady told me of Lydia E. Pinkham's Vegetable Compound and how much good it had done her daughter, so I took it and now I am regular every month and have no pain at all. I recommend your medicine to everyone and you may publish my testimonial, hoping that the Vegetable Compound does some other girl the good it has done me."—Mrs. GEORGE TEGARDEN, 915 Third Street, Moundsville, W. Va.

How many young girls suffer as Mrs. Tegarden did and do not know where to turn for advice or help. They often are obliged to earn their living by toiling day in and day out no matter how hard the pain they have to bear. Every girl who suffers in this way should try Lydia E. Pinkham's Vegetable Compound and if she does not get prompt relief write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts, about her health. Such letters are held in strict confidence.

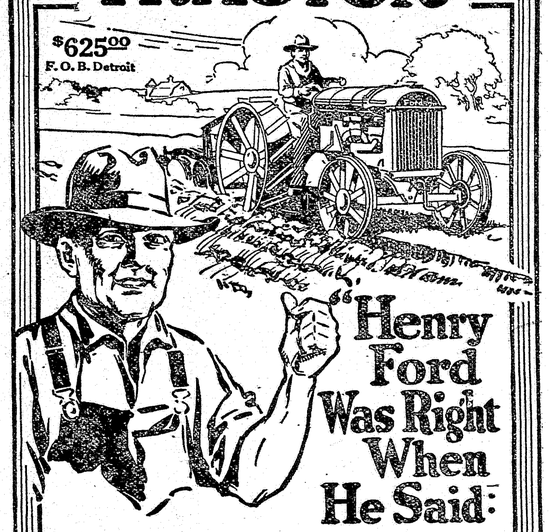
Fordson TRACTOR



"Henry Ford Was Right When He Said:

'The Tractor will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth'."

This tractor has done much—very much—in bringing true Mr. Ford's prophecy; for in it is a machine which has harnessed one of the most dependable, efficient, adaptable, economical sources of power in the world—a machine that saves from thirty to fifty per cent of the farmer's time — a machine which many farmers claim plows, harrows or drills as much ground in the same time as four, six or even eight horses. And more—a machine that takes care of every power job on the farm.

Call and let's talk it over, or telephone or drop us a card and we will bring the facts to you.

DO YOU want to reinvest, a few years hence, at lower yield the money you are now investing at a very high yield?

Or do you want to keep the high yield?

One way to feel reasonably sure of 6½ per cent. for life is to invest **now** in Central Maine Power Company 7 per cent. Preferred stock. True, it is callable—but it is unlikely ever to be called, both because of its high call price, 120; and because the Company has, through the sale of this preferred stock secured in Maine over 6,500 profit-sharing friends. It will surely never willingly do anything to disturb such a satisfactory condition of home ownership and customer profit-sharing.

NORWAY LAKE

To Hold Runion

The officers of the Norway Lake school association meet with Mrs. Lottie Crane, Thursday evening. It was decided to hold the reunion, Thursday, Aug. 25, and the following committees were appointed:

Moving Com.—Arthur Tucker, Daniel Dullea, Clarence Dunham, Merton Greene, Victor Partridge, Ralph Flood, Virgil Flood, and everyone else who is willing to assist.

This last is a new committee, but there is so much to be moved to and from the grove it was thought it would be well to have a committee appointed to have this matter in charge. If pleasant the dinner will be served in the schoolhouse grove and the afternoon exercises held there; if stormy we will meet at the Mothers' Club Hall. The Norway Lake people will furnish the baked beans, coffee and soft pies, and those who live at a distance are to bring cake, doughnuts and the more substantial pies, as they did last year.

PROF. C. J. BUDLONG,

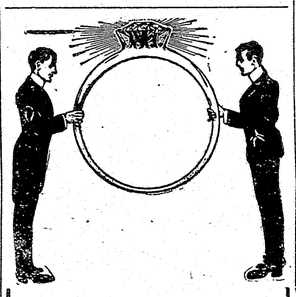
Manchester, N. H.

"I am in good health for the first time in thirty years and I give Tanlac the entire credit," said Professor C. J. Budlong, well-known and highly respected citizen of Manchester, N. H., living at 42 School street.

"From the time I was a boy I couldn't sit down and eat a meal without being in misery afterwards from indigestion. During all these years I was afflicted with rheumatism, too. It was all over my body, but especially bad in my feet and legs and at times I couldn't get from my bed to my chair without help. I was almost a nervous wreck from all these years of suffering and could not half do my work. I hoped for nothing more than temporary benefit from Tanlac, as I believed it impossible for any medicine to give me entire relief, but this is exactly what Tanlac has done.

"For the first time since I can remember, I eat anything I want and digest it without trouble. I haven't an ache or a pain and have put on eighteen pounds in weight. I just feel good all over and enjoy life as I never did before. Having put Tanlac to the test I do not hesitate to say that it is the greatest medicine of the age for stomach trouble and rheumatism.

Tanlac is sold by A. L. Clark Drug Co., Norway; Stowell Bros., Locke's Mills; R. E. Pinkham, East Waterford; W. H. Brown, East Stoneham; Heald, Stearns & Kimball, Lovell, H. L. Hutchins Co., North Fryeburg; L. R. Rounds & Co., Waterford, and P. G. Barrett, Welchville, Me.



The Lure of BIRTH STONES

AUGUST

Queen Elizabeth gave the Earl of Essex the birthstone of August, a sardonyx, as a pledge of her friendship. When sentenced to death, Essex sent this ring to Elizabeth. By mistake the messenger gave the ring to Countess Nottingham, an enemy of the Earl, who did not deliver the talismanic ring, and in consequence the fated Earl was executed. Countess Nottingham, when dying, confessed this to Elizabeth, who shook her, saying, "God may forgive you, but I cannot."

Does It Help Woodstock?

Why knock our Chamber of Commerce! Lots of our citizens are doing it. Commenced at the time the Chamber failed to bring the electric current over from Rumford. Kept it up ever since; said its officers were no good, said it was nothing but an organization of Woodstock's idle rich; said it was nothing but a combination of merchants to boost prices and scalp the poor man; said it was run by a certain bunch who wanted everything their own way; said it would ruin the town unless this horrid monster was put out of commission. When the sand became deep on the common and the autos stood still, people cursed the Chamber of Commerce and wished it had never been born, and finally it became such a habit that they blamed the Chamber of Commerce for all the crime, and hot weather.

To be sure the Chamber has made mistakes, a few big mistakes and many smaller mistakes, just because it was composed of humans, but haven't other organizations sometimes made mistakes as well? When the smoke of battle clears away, we do not think the average good citizen of the town will say that all the work of the Chamber has been thrown away.

Knocking never did one thing to build up a town. It does not help Woodstock. Every live, progressive town has its Chamber of Commerce or Board of Trade. Surely the town of Woodstock will do no less. Correct the mistakes, get behind and boost. There is lots to be done. Woodstock is one of the best little towns in Maine. Let us ever strive to make it the very best.

Is it not time that something was done to mark permanently that danger hole at Gibson's Grove beach? Has not a sufficient number of young people lost their lives there in the past few years to demand it? It was only a short time ago when Mr. and Mrs. Frank Young of Norway, a young lady from Lakeport, N. H., and now the Davis girl from South Paris have lost their lives there. Each year there is a scare, someone gets in and is rescued—yet the place is unmarked. Can't something be fixed there permanently to show the danger zone?
